Inclement Weather Policy:

New River Transit carefully monitors adverse weather conditions as they occur. We value the safety of our riders and will make a decision concerning service as quickly as possible. Normally we will operate on a delay of routes and demand response, but in rare cases, we must suspend all routes. If delays occur, we will inform the public via press releases, social media, and by updating this website.

Board Approved 11/21/2022
